

# Happy

Ryan Amador

I made my peace  
You said this would be easy  
You flew away forever miles  
I left this burning house

You said I make you happy  
Who cares if you don't stay  
My bird will sing me to sleep  
Please don't fly away

I saw you go  
I'm sure there's a lot that I don't know  
We took it slow  
But now I wish I'd embrace your soul

You said I make you happy  
Who cares if you don't stay  
My girl will always love me  
Please don't go away

Don't leave home, don't leave home (without my love and your go  
odbye)  
Don't let go, don't let go (your love's a boomerang that shines  
)

I said you make me happy  
Who knows what's meant to be?  
I love girl you've become  
Don't forget about me
