

# Target Practice

Ryan Amador

Another one down  
Another one down  
How many more must we put in the ground?  
How many cries before we can silence the sound?  
Another one down  
Another one down

A mother in pain  
Another in pain  
How many times, for how many days?  
How many lives do we need to put in a list of names?  
Before we stop sayin what a shame

Are we playing a game?  
Are we playing a game?  
Yeah are we shooting targets?  
Shooting targets  
Are we playing a game?  
Are we playing a game?  
Yeah are we shooting targets?  
Like it's target practice

A pistol for your pillow  
Machine gun for throwing darts  
Buy one at the gun show  
Or at your local WalMart  
Every person wants to feel protected  
Everyone wants a head-start  
Why's it so damn easy  
To stop a beating heart?

Whether it's young kids at the arcade  
Or grown men at the party  
Billboards on the freeway  
Or soldiers in the army  
Every bullet's made kill somebody  
Every gun is made to fill some need  
Every body's made to grow up free  
Not for bleeding out

Are we playing a game?  
Are we playing a game?  
Yeah are we shooting targets?  
Shooting targets  
Are we playing a game?  
Are we playing a game?  
Yeah are we shooting targets?  
Like it's target practice

Put your weapons down  
And pour your bullets out  
Put your weapons down  
And pour your bullets out  
Put your weapons down  
And pour your bullets out  
Put your weapons down  
And pour your bullets out  
Put your weapons down  
And pour your bullets out

Are we playing a game?  
Are we playing a game?  
Yeah are we shooting targets?  
Shooting targets  
Are we playing a game?  
Are we playing a game?  
Yeah are we shooting targets?  
Like it's target practice
