By My Side

Ryan Beatty

Honestly, I don't know where I'll be
In a couple years, hope I fulfil my fantasy
There'll be no tears, someday it'll work out
Work out for me
I know it's gettin' closer
Close to see

If I start to be myself
Every single day of my life
Something tells me that I'm gonna be alright
If I ever lose myself
All my friends will be by my side
Nothing's ever gonna change the way I feel

If you got a minute, if you got a minute
Promise that I won't change
If you ever want it, if you ever want it
Call out my name

When I was younger
I would call on my brother
Now he calls on me for a little bit of sunshine
Some peace of mind
My only advice
Never think twice
Follow you heart
If you get lost, go back to the start
Woo-woo-woo, ooh, ooh

If I start to be myself
Every single day of my life
Something tells me that I'm gonna be alright
If I ever lose myself
All my friends will be by my side
Nothing's ever gonna change the way I feel

If you got a minute, if you got a minute
Promise that I won't change
If you ever want it, if you ever want it
Call out my name

When I was younger
I would call on my brother
Now he calls on me for a little bit of sunshine
Some peace of mind
My only advice
Never think twice
Follow you heart
If you get lost, go back to the start
Woo-woo-woo, ooh, ooh

If I start to be myself
Every single day of my life
Something tells me that I'm gonna be alright
If I ever lose myself
All my friends will be by my side
Nothing's ever gonna change the way I feel

If you got a minute, if you got a minute
Promise that I won't change
If you ever want it, if you ever want it
Call out my name

If you got a minute, if you got a minute
Promise that I won't change
If you ever want it, if you ever want it
Call out my name
