

Dark Circles, A Performance

Ryan Beatty

Match me, when I tell you things that no one knows about me
What keeps me up at night
What keeps you in my life

I left you at time when you were trying to get your life back
I'll probably end up somewhere in the lime light
What keeps me up at night
What keeps you in my life

I swear, If I could give you up
I would erase you
Get you out of my mind (he's all I think about)
Let you go somewhere else (try to let go but I can't help)

Alone in the clothes you let me borrow
When the rain came
I'm laying down and I can't help but daydream
Who do you idolize now
Do you ever think about me

Think about me
Think about me
Think about me

I don't have the bones to be free
I believe in love when he
Confesses himself inside me

I don't have the bones to be free
I believe in love when he
Confesses himself inside me

I think forever is too long
What does it mean to be loyal
I put your jacket on
To make me feel important

I think forever is too long
What does it mean to be loyal
I put your jacket on
To make me feel important

Never wanna be someone else's lover
Never wanna be someone else's lover

I don't have the bones to be free
I believe in love when he
Confesses himself inside me

I don't have the bones to be free
I believe in love when he
Confesses himself inside me
