

You know, it's a free world  
You can leave when you want  
Take the money and run, run, run to me  
Freeway, it's a free world  
You can leave when you want  
Take the money and run, run, run to me  
Who are you when I'm not around?  
Who are you when I'm not around?  
White lines, you've been working all the time  
Need to cool you down  
I've been on the sidelines and I watch it fall apart

All my cash is in Euros  
All my coins are in Yen  
All my boys European  
All my money is gone

Don't wanna rent cars, I wanna crash cars  
I'm feeling NASCAR in mom and dad's car  
I'm not suicidal, I'm too afraid to die  
Wanna feel something other than sadness sometimes  
Damn  
I can't relate to the people who relate to me  
Always late to the party that I don't wanna be  
Can't trust them anyway, can't trust them anyway  
They don't see me for me

You are special to me  
You are special to me  
You are special to me  
You are special to me  
You are special to me  
You are special to me

I'll subtract all the gold  
Reach a couple of goals  
Take a trip to the bridge  
See what it's really worth  
All my cash is in Euros  
All my coins are in Yen  
All my boys European  
All my money is gone
