

Evergreen

Ryan Beatty

It was seven or so, cause the daylight was over
You got out of the robe and into the water
We're too familiar, we're too tethered
What comes after, what comes after

If there's nothing else round the corner
If there's nothing else round the corner
We can meet up right where we left off
If there's nothing else round the corner
If there's nothing else round the corner
If there's nothing else round the corner

Throw t off me
Show skin, surely
Thought we were evergreen
Now we're just on fire
I won't know free
Til he holds me
And I don't feel pleasure
When I'm up inside

Leave fast as I can, staying back could be bad (I lose sleep)
Thought of wanting you back,
I wrestle with that (I lose sleep)
I don't know where you are
I don't know if it's bad, no answer
What comes after, what comes after

If there's nothing else round the corner
If there's nothing else round the corner
We can meet up right where we left off
If there's nothing else round the corner
If there's nothing else round the corner
If there's nothing else round the corner

If there's nothing else right here
If there's nothing left to give
We can meet up right where we left
If there's nothing else round the corner
If there's nothing else round the corner

Throw t off me
Show skin, surely
Thought we were evergreen
Now we're just on fire
I won't know free
Til he holds me
And I don't feel pleasure
When I'm up inside

Throw t off me
Show skin, surely
Thought we were evergreen
Now we're just on fire
I won't know free
Til he holds me
And I don't feel pleasure

When I'm up inside
