

Money

Ryan Beatty

When you've got friends
And you got that money
Honey, they're your friends until the money spent
Pay that bill
Trigger pulled too fast
Now you're driving home and you are all alone

Call me good, call me bad
Don't care what you say just call me bad
Money comes and people go
But I won't live forever
Call me good, call me bad
Don't care what you say just call me bad
People talk and walk away
But I won't live forever

I can't pay your rent today
I can't even pay attention
Been living no home for way too long
My job is driving me
I call my friends today (Hi)
I call my friends tomorrow (Bye)
I call but they're not enough
What the fuck?
Tell me, tell me, tell me, tell me
What did I do wrong?
Someone else to fill my shoes
Who else are they counting on?
Did they find a place without me?
It can't be the same without me, without me
Without my money money money money money!

When you've got friends
And you got that money (and you got that money)
Honey, they're your friends until the money spent
Pay that bill (pay that bill)
Trigger pulled too fast
Now you're driving home and you are all alone

Call me good, call me bad
Don't care what you say just call me bad
Money comes and people go
But I won't live forever
Call me good, call me bad
Don't care what you say just call me bad
People talk and walk away
But I won't live forever

Money money money money money!
Money money money money money!

Hmm, what's up to ya?
I can see through ya
When it comes down to it
Tell me what really makes you happy?
Do I make you happy?
What's up to ya?

I can see through ya
When it comes down to it
Tell me what really makes you happy?
Do I make you happy?

Do I make you happy?
Do I make you happy?
Money money money money money!
Does my money make you happy?
Do I? Do I make you feel?
Money money money money money!
