

## Party's Over

Ryan Beatty

You've been on my mind  
And I wonder if you will ever be mine  
I'd like that  
You've been on my mind  
And I wonder if you will ever be mine  
I like that

When you walk in  
The room stops talking  
The boys are flocking  
They want you  
Keep my distance  
'Cause you're with him  
Make a decision  
Is he your lover or boyfriend?

Party's over  
Wishing on a  
Four-leaf clover  
You'll come over  
When we roll like this

Party's over  
Wishing on a  
Four leaf clover  
You'll come over  
When we roll like this

We could be friends  
We could be more than friends if you want to

I don't know them  
They're not my friends  
I just have them come over so I have a reason, to see you

You are a superstar  
Seen every movie that you've been in  
Let's make a movie tonight

Party's over  
Wishing on a  
Four-leaf clover  
You'll come over  
When we roll like this

Party's over  
Wishing on a  
Four-leaf clover  
You'll come over  
When we roll like this

I don't wanna live without you  
Couldn't see my life without you in it  
I'd probably lose my fucking mind

I don't wanna live without you  
Couldn't see my life without you in it

I'd probably lose my fucking mind
