

# The Highway

Ryan Bingham

Well I can't recall where I'm from  
But I think it's where them cowboys are born  
Along the highway  
Oh along this highway

My momma said when I was born  
The look in your eyes  
Well I could tell ya's gonna run  
Along the highway  
Oh along this highway

Land I ride  
Oh I see through the smoke  
Engine rolls  
Carry me on to the west coast  
And it's the same sunny race  
Oh I see everyday  
Risin' above oh a lonesome highway

And all I have are these two hands  
And these two thumbs  
Hitchin' my way across the land  
Along the highway  
Oh along this highway

Now I might die a broken man's son  
But I will ride until I can reach the sun  
Along this highway  
Along this highway

My momma said when I was young  
The look in your eyes  
Well I could tell ya's gonna run  
On the highway  
Oh along this highway
