

# Forgot How to Fly

Ryan Cabrera

Skydiving, free falling  
I start out and keep stalling  
Circle right above the sand  
You were my horizon  
Our shadows fill my eyes and  
I'll I'm trying to do is land

Can you save me?  
Help me do this bravely  
Does anybody hear me?  
I'm falling apart

It's been one day without you  
I'm like a bird without a sky  
One day without you and I  
Forgot how to fly

Forgot how to fly

No air and no breezes  
Ones for my heart it freezes  
And I can't breathe when I look back  
Inside and outside burning  
Somehow the world keeps turning  
And all my colors fade to black

As I bravely  
Try to get there safely  
Who is gonna save me  
From falling apart

It's been one day without you  
I'm like a bird without a sky  
One day without you and I  
Forgot how to fly

Am I ever gonna be the same?  
Am I ever gonna spread my wings and feel the sun upon my face?  
Feels like a world away  
A world away

It's been one day without you  
I'm like a bird without a sky  
One day without you and I  
It's been one day without you  
I'm like a bird without a sky  
One day without you and I  
Forgot how to fly

Forgot how to fly
