

Let's Take Our Time

Ryan Cabrera

I wanna give every part of you the attention it deserves
I want to take it slow get you in the mood
Cuz the clocks not guna turn
We've been waiting for a couple of weeks
And i know we shouldn't rush
Theres no one here but us

I dont want this to die
Dont want to ever forget this night
To hurry you would be a crime
Lets take our time
Lets take our time

Something so right when i hold you
I dont want to ever let you go
When you whisper in my ear
All the things you want to do
This sensation starts to grow
I dreamt about it every day and night
Never thought that it'd come true
Now its just me & you

I dont want this to die
Dont want to ever forget this night
To hurry you would be a crime
Lets take our time
Lets take our time

I dont want this to die
Dont want to ever forget this night
To hurry you would be a crime
Lets take our time

I dont want this to die
Dont want to ever forget this night
To hurry you would be a crime
Lets take our time
Lets take our time

Lets take our time
Lets take our time
Lets take our time
