

## Photo

Ryan Cabrera

A photo can say a thousand things  
But it can't say the million things I wanna say  
A photo can capture the way we were  
But it can't capture the way we are  
'Cause you're far away  
What it's like to know you  
What it's like to touch you

When you told me that you loved me  
were those just words  
You can't tell me you don't need me  
and I know that hurts  
'Cause I'm looking at your picture  
'Cause it's all I've got  
Maybe one day  
You and me will have one more shot

Timing lost minutes and moments  
And I might be lonely girl  
But I'm not afraid  
In a second  
It all comes right back to me  
Nothing's forgotten now  
Yeah everything's saved  
What it's like to touch you  
What it's like to know you

When you told me that you loved me  
were those just words  
You can't tell me you don't need me  
and I know that hurts  
'Cause I'm looking at your picture  
'Cause it's all I've got  
Maybe one day  
You and me will have one more shot

You were my life  
you were my faith  
You gave me hope every day

When you told me that you loved me  
were those just words  
You can't tell me you don't need me  
and I know that hurts  
'Cause I'm looking at your picture  
'Cause it's all I've got  
Maybe one day  
You and me will have one more shot
