

# Bubbles

Ryan Caraveo

You drive me crazy, I think I like it  
Wake up with a smile, fall asleep fighting  
It isn't healthy, but it's exciting  
You drive me crazy, I think I like it  
I'm drowning in the deep-end, baby  
I like how the bubbles look  
I'm drowning in the deep-end, baby  
I like how the bubbles look

'Till the bubbles gone, you don't even double-take  
The B.S. that you feed me give me tummy aches  
Still, I eat it all  
Beg you for a second plate  
Smile while your screaming at me  
Now, this how I meditate  
Sinking, sinking, sinking  
Don't you pick me up  
You got me thinking, thinking, thinking  
That I'm hideous  
'Till you tell me I'm not  
You were just mad  
I hit the bottom, then you start reeling me back

Please know: I don't wanna breathe this air again  
Pull the hook out, please throw me back in  
Wherever is deepest, I can swim  
I don't wanna see your ass again

You drive me crazy, I think I like it  
Wake up with a smile, fall asleep fighting  
This isn't healthy, but it's exciting  
You drive me crazy, I think I like it  
I'm drowning in the deep-end, baby  
I like how the bubbles look  
I'm drowning in the deep-end, baby  
I like how the bubbles look

Tearing through my clothes looking for a clue (for a clue)  
My favorite t-shirt got torn in two (torn in two)  
Digging through my pockets looking for receipts  
This is like a horror-show, but every night it's on repeat  
Pick the phone up like "don't you ever call me" BEEP  
Right after that, I text you like "I'm sorry, please  
Please, please, please I didn't mean it  
I took the blame, why you leaving?  
Why you leaving?"

Please know: I don't wanna breathe this air again  
Pull the hook out, please throw me back in  
Wherever is deepest, I can swim  
I just wanna see your ass again

You drive me crazy, I think I like it  
Wake up with a smile, fall asleep fighting  
It isn't healthy, but it's exciting  
You drive me crazy, I think I like it  
I'm drowning in the deep-end, baby

I like how the bubbles look  
I'm drowning in the deep-end, baby  
I like how the bubbles look
