

Cannonball

Ryan Caraveo

Might cannonball off the deep end
Oh I got so many reasons
I might fuck it up
But let me tell you I tried

I was free-falling down
Wedding bells never heard the sound
No big homie
No pep talks I was big lonely
Now we can't be stopped
Climbing to the tree top
Came up on these blocks
Now we all over the world
All over the world

Might cannonball off the deep end
Oh I got so many reasons
I might fuck it up
But let me tell you I tried

Might cannonball off the deep end
Oh I got so many reasons
I might fuck it up
But let me tell you I tried

Rain in my brain, heavy showers in my skull
Any day any hour I could go
In my mind there's no power or control
But I know every flowers gotta grow
Where I'm from
We all feel like what's the point of trying for
Where I'm from
We treat overpasses like they diving boards
Cannonball cuz I can't evolve
But on the other hand I could have it all

Might cannonball off the deep end
Oh I got so many reasons
I might fuck it up
But let me tell you I tried
(Ooh ooh yeah)

Might cannonball off the deep end
Oh I got so many reasons
I might fuck it up
But let me tell you I tried

Come with me
Time is running out
Done living underground
Pits in the stomach cuz of how we live
I'm the hope when there's none around
Dope when they dumb it down
Started with nothin'
Look at how we did

Come with me

Time is running out
Done living underground
Pits in the stomach cuz of how we live
I'm the hope when there's none around
Dope when they dumb it down
Started with nothin'
Look at how we did

Come with me
Time is running out
Done living underground
Pits in the stomach, started with nothin
I'm the hope when there's none around
Dope when they dumb it down
Started with nothin'
Started with nothin'

Come with me
Time is running out
Done living underground
Pits in the stomach, started with nothin
I'm the hope when there's none around
Dope when they dumb it down
Started with nothin'

Might cannonball
Might cannonball, deep end
Might cannonball
Might cannonball, deep end

Might cannonball off the deep end
Oh I got so many reasons
I might fuck it up
But let me tell you I tried
