

# Dropped Dead

Ryan Caraveo

You said that you would die for me  
But you haven't dropped dead yet  
You said that you would kill for me  
But your hands ain't red yet  
I can't tell if you're  
Down

At least leave your prints on the blade  
Confess your crimes on the page  
Write it all down and explain how you plan to get away  
Take a video, tell me how you would do it if you did it  
So if you don't commit, you get committed

You said that you would die for me  
But you haven't dropped dead yet  
You said that you would kill for me  
But your hands ain't red yet  
I can't tell if you're  
Down

It's really nothing against you  
Words are just far too simple  
Chryslers look just like Bentleys  
Diamonds look like crystals in love  
Looks like everyone who shakes my hand  
If it's real, then I need proof  
Bite me once and leave your tooth

You said that you would die for me  
But you haven't dropped dead yet  
You said that you would kill for me  
But your hands ain't red yet  
I can't tell if you're  
Down

You said that you would die for me  
You said that you would die for me  
You said that you would die for me  
You said that you would die for me  
You said that you would die for me  
You said that you would die for me  
You said that you would die for me  
For me
