

Feed Me to Flames

Ryan Caraveo

I'm him, Ry with the big dream
Vibrate high like a ride with the 15s
I been low, real low but I'm lifting
Up 'cause it's never too late to fix things

I was down in the basement
Always doing what ever the hell I could get away with
When your flame dim you'll do whatever to stay lit
But thing is you'll never ever escape it

I could never deal with myself
'Til I really feel what you felt
And now I'm ready to burn and willing to melt
So

Feed me to flames
Throw me to fire
I'm fiending for change
I know that you're tired

It's me you should blame
So feed me to flames

So feed me to flames
In the fire, in the fire, in the fire
So feed me to flames
Know you're tired, know you're tired

Go 'head and feed me to flames

My heart beaming out my chest
Like a big chain gleaming on my neck
(uh huh uh huh)
I was never feeling alright, them drugs
Had me leaning to the left
(uh huh uh huh)

I wanna burn it all down
These bones ain't good
This home needs something new

I'm ready to restart now
So why don't you

Feed me to flames
Throw me to fire?
I'm fiending for change
I know that you're tired

It's me you should blame
So feed me to flames

So feed me to flames
In the fire, in the fire, in the fire
So feed me to flames
Know you're tired, know you're tired

Go 'head and feed me to flames

In the fire, in the fire, in the fire, in the fire

Go 'head and feed me to flames

Wanna try, wanna try, wanna try, wanna try

Go 'head and feed me to flames

No more lies, no more lies, no more lies, no more lies

Go 'head and feed me to flames

In the fire, in the fire, in the fire, in the fire

Go 'head and feed me to flames
