

Grim Reaper

Ryan Caraveo

Imma go as hard as I can dawg
Til' the Grim Reaper come and take me
I'm not afraid of fallin' to the very bottom
No death don't intimidate me
Cause I bleed the blood of a winner
I can feel it all running through my veins
I know this might sound a lil' crazy to ya
You wouldn't understand unless you was me

I'm sick of all the bullies, sick of all the classes
I am done dealin' with all of the bitch-assness
I am not a cool kid, I am coo-coo if you ask them
Grew up outcasted, happy never lasted
Cruisin' 99, Aurora be the Avenue
Fiends, up and down the block, searchin' for a bag or two
Girls sellin' sex, crazy what your habitat'll do
Still your boy always kept the happy attitude
Stay daydreamin' bout what I could achieve
Passin' grades in every class, but they were all D's
Never felt the school-books was the callin' for me
No one in my bloodline got a college degree
So
We'll make our own way, ya we'll make our own way
No it's not a lot to y'all but I done came a long way
Use to get lonely, now I like the space
Show the family that we can, I think I finally found my place

Imma go as hard as I can dawg
Tell the Grim Reaper come and take me
I'm not afraid of fallin' to the very bottom
No death don't intimidate me
Cause I bleed the blood of a winner
I can feel it all running through my veins
I know this might sound a lil' crazy to ya
You wouldn't understand unless you was me

Tell the grim reaper come and take me
Tell the grim reaper come and take me
(Take me, take me, take me)
Tell the grim reaper come and take me

I been livin' life with my guard up
Tough skin, I ain't lettin' anybody in
You seem nice so I'm sorry that you gotta deal
With the repercussions of what everybody did
Old friends turn to fiends who would die for grams
When they breathe hear the wheeze in their diaphragms
Remember you, always hated on the crew
Now you trynna put our circles together like venn diagrams
I can count up all my friends, on two hands
Wavin' my middle fingers like this is my new dance
I gave em' all a shot, I won't give em' a new chance
I'm shinin' all on my own, I glisten like new gems
Ooh man, now it don't hurt so much
Why'd I feel when you leave, I ain't worth your touch
I'm invisible now, you invisible now
I don't do it for the prize, it's the principle now

So

Imma go as hard as I can dawg
Tell the Grim Reaper come and take me
I'm not afraid of fallin' to the very bottom
No death don't intimidate me
Cause I bleed the blood of a winner
I can feel it all running through my veins
I know this might sound a lil' crazy to ya
You wouldn't understand unless you was me

Tell the grim reaper come and take me
Tell the grim reaper come and take me
(Take me, take me, take me)
Tell the grim reaper come and take me
