

Head Down

Ryan Caraveo

I don't have the answers to life or what it's about
But I know eventually, all love fizzles out
Somehow it comes back when I'm feeling my best again
They thought I hung it up and suddenly they stop checking in

'Til I start getting checks again
Now you wanna be affectionate
If I start putting effort in
I can feel that F&N

I can feel your sights set
I can hear your tight breath
I can see your eyeballs
Clocking every one of my steps

All I know is keep my head down
They come around when I pop back up
All I know is keep my head down (head down)
Wish we were down but I'm not that dumb

Aim for the headshot
For the head shot
For the head
If I pop back up

All I know is keep my head down (head down)
All I know is keep my head down

Wanna live life to the best
But I get tired and stressed
When a bitch try to get slick
I gotta decipher the text

Tryna split fibers and threads
Doing witch trials in my head
I can't decide if a sick vibe
Is just disguised as a threat

So I just lie in my bed
I know this might of upset you
But I don't care about dislikes
In this life or the next

And, it's why I'm depressed, but
If I were to just slip
One little tidbit when this shit whizz by
Then I'm dead

All I know is keep my head down
They come around when I pop back up
All I know is keep my head down (head down)
Wish we were down but I'm not that dumb

Aim for the headshot
For the head shot
For the head
If I pop back up

All I know is keep my head down (head down)
All I know is keep my head down
