

# It's Not Real

Ryan Caraveo

Do you blend in  
Are you ashamed of your intentions  
Do you switch up when you feel threatened  
Do you trade courage for acceptance

Who controls the view  
Of what's beautiful to you  
You're too afraid to lose  
And I could surely use, something

Real  
Give me something that something that I can  
Feel  
Right now I can't feel nothin' cause it's not  
Real  
Give me something that something that I can  
Feel  
Right now I can't feel nothin'

It must be so nice inside your bubble  
Isolated you hide from the trouble  
I've never seen the whites in your knuckles  
Cause you hide from the fight  
Yeah you side step and shuffle

Give me that real holyfield  
Come and punch me in the grill  
Take me off the path where it's bumpy in the wheels  
I ain't tryna be all comfy in the hills  
Show me something else cause I can't tell are you even...

Real  
Give me something that something that I can  
Feel  
Right now I can't feel nothin' cause it's not  
Real  
Give me something that something that I can  
Feel  
Right now I can't feel nothin'

You're so beautiful  
Problem is you're missing soul  
The bullshit glitters so  
You chase it like it is gold  
You're so beautiful  
Problem is you're missing soul  
The bullshit glitters so  
You chase it like it is gold

Real  
Give me something that something that I can  
Feel  
Right now I can't feel nothin' cause it's not  
Real  
Give me something that something that I can  
Feel  
Right now I can't feel nothin'
