

# No Fun

Ryan Caraveo

I don't wanna celebrate  
I don't wanna get high, I wanna elevate  
I've been up for hella days  
She called it a daydream, think it's time to separate  
When I finally catch a break  
I'ma make it rain so fuckin' large, your umbrella break  
People tell me pump my breaks  
Just 'cause they ran out of time, justifyin' their mistakes

I don't need a little me-time  
I throw middle finger, peace signs  
In your direction if you missin'  
Understand I cannot kick it 'cause

I can't have no fun  
'Til I get everything I ever wanted, everything I ever wanted  
I can't have no fun  
'Til I get everything I ever wanted, everything I ever wanted  
I can't have no fun, fun  
I can't have no fun  
'Til I get everything I ever wanted, everything I ever wanted  
I can't have no-

I don't ever hesitate  
You think I won't cut you off? Allow me to demonstrate  
Call me when you less afraid  
Precious time is passin' while you sit there and speculate  
I don't wanna book vacays  
I want my life to be so good that I cannot look away  
I don't wanna hook up, 'kay?  
Please delete my number 'cause

I can't have no fun  
'Til I get everything I ever wanted, everything I ever wanted  
I can't have no fun  
'Til I get everything I ever wanted, everything I ever wanted  
I can't have no fun, fun  
I can't have no fun  
'Til I get everything I ever wanted, everything I ever wanted  
(Everything I ever wanted)

I don't need a little me-time  
I throw middle finger, peace signs  
In your direction if you missin'  
Understand I cannot kick it 'cause

I can't have no fun  
What you gonna do when you get your first million?  
Buy a skyscraper  
Why would you do that?  
So I can jump off of it
