

# Numb

Ryan Caraveo

And it cuts (cuts)  
Deeper than the roots of the trees that we planted in the graveyard (graveyard)  
I don't think these scars will ever fade off (fade off)  
Good thing nothing seems to faze us

So numb (so numb, so numb)  
We've become so numb (so numb, so numb)  
How'd we get so numb? (so numb, so numb)  
We've become so numb (so numb)  
So numb...

Ooh...  
I've been stuck in a spell  
Breathing in the poison like I'm in love with the smell  
Ah...  
Don't have no choice  
Screaming at the static  
Now, I don't have no voice  
We...  
Can't tell the real from the fake  
If we get stressed out, pop the seal and escape  
Ah...  
Feel good right now  
I got a lot of shit to do, but Imma just lie down

Don't wake me up, I'm having good dreams  
I can't feel nothing, and that's a good thing  
I feel useful when I get used  
So numb, I don't wanna hear the truth

So numb (so numb, so numb)  
We've become so numb (so numb, so numb)  
How'd we get so numb? (so numb, so numb)  
We've become so numb (so numb)  
So numb  
So numb (so numb, so numb)  
We've become so numb (so numb, so numb)  
How'd we get so numb? (so numb, so numb)  
We've become so numb (so numb)  
So numb

Ooh...  
I've been stuck in a fog  
It's killing me, but I don't feel nothing at all  
Ah...  
Just a notch on the belt  
I'm in a photo on the front page calling for help  
We...  
Are just playing around  
I got a bulletproof casket, plated and gold  
Don't...  
I make death look good  
Everyone's staring at me just like they should

There's no pilot in the cockpit  
But I can still talk while staying on top it

I been sleep walking around for days  
And no one's noticed that I'm not awake

And it cuts (cuts)  
Deeper than the roots of the trees that we planted in the graveyard (graveyard)  
I don't think these scars will ever fade off (fade off)  
Good thing nothing seems to faze us

So numb (so numb, so numb)  
We've become so numb (so numb, so numb)  
How'd we get so numb? (so numb, so numb)  
We've become so numb (so numb)  
So numb  
So numb (so numb, so numb)  
We've become so numb (so numb, so numb)  
How'd we get so numb? (so numb, so numb)  
We've become so numb (so numb)  
So numb

And it cuts... (owww)...
