

Please Come Back To Me

Ryan Caraveo

(Please come back to me)

I was trying to make you proud
You were trying to be ok
Took it personal
And I didn't hear your voice or see your face
That's my bad
I know it ain't your fault
You were traumatized
Like growing up without her
Made me believe mama's lies
That shit made me crave control
And it made you drift away
I think we were dealing with the same problem in different ways
Made us tear each other down
Throw dirt on each other's names
Yeah, the blood is on our hands
But we both know we were framed

Please come back to me
I just miss you by my side
I would kill that harmony
While we commit that homicide
Please come back to me
I just miss you as a friend
How it felt when we were close
I wanna feel that again

Please come back to me
I just miss you by my side
I would kill that harmony
While we commit that homicide
Please come back to me
I just miss you as a friend
How it felt when we were close
I wanna feel that again

As children we both grew up
Only focused on our loss
I wanted to know my mom
And you wanted to know your pops
I feel like I had to save them
You feel like it's all your fault
Why is it so hard for them
To just show up and do their jobs
After all the pills I popped
After all your DUI's
New man aura
Still with pistols
Hmm, I wonder "gee, oh why?"
We can't fix our issues
Cause we were not given any tools
I think we both know the problem
And no, no, it isn't you

Please come back to me
I just miss you by my side

I would kill that harmony
While we commit that homicide
Please come back to me
I just miss you as a friend
How it felt when we were close
I wanna feel that again

Please come back to me
I just miss you by my side
I would kill that harmony
While we commit that homicide
Please come back to me
I just miss you as a friend
How it felt when we were close
I wanna feel that again

Please come back to me
Please come back to me
Please come back to me
Please come back to me

Please come back to me
I just miss you by my side
I would kill that harmony
While we commit that homicide
Please come back to me
I just miss you as a friend
How it felt when we were close
I wanna feel that again
