

Rain In Brisbane

Ryan Caraveo

I'm falling like the rain, in Brisbane
She gave me that look, I said same
Butterflies distract me from the pain
She keep me alive when I'm circling the drain

Words don't mean anything
Seatbelts are like wedding rings
We can still die if we crash
Smile on my face as I dive through the glass
Cuz someone made me feel like life is a blast
And everybody else only try when I ask
We vibin' until the horizon is black
All the noise in my head went silent at last
Noise in my head went silent at last

I'm falling like the rain, in Brisbane
She gave me that look, I said same
Butterflies distract me from the pain
She keep me alive when I'm circling the drain
I'm falling like the

I'm fallin' like drip drop
One week passed in a second like (tik tok)
Really got sick when this shit stopped
Cuz I got hypnotized when our lips locked
But amidst all this I was still cautious cuz
Good, things, they always end
I forgot about the pain just to feel it all again
I probably been, livin' in this loop for a year
I still feel her next to me even though there's no one here

Colorful
Greyscale world you so colorful
Few days I felt wonderful
Cuz you wonderful

I'm falling like the rain, in Brisbane
She gave me that look, I said same
Butterflies distract me from the pain
She keep me alive when I'm circling the drain
I'm falling like the rain, in Brisbane
She gave me that look, I said same
Butterflies distract me from the pain
She keep me alive when I'm circling the drain
