

# Up up & Away

Ryan Caraveo

I race through the meadow  
Chasing UFO's  
Craving to get home

The rain and pebbles  
Sprayed and speckled  
My face and freckles

Embracing the tempo  
The bass in my headphones  
Shaking my neck bone

The way it crescendoed  
Made me just let go  
It's crazy I guess so

I think it's funny that  
We live our last 30 years  
Tryna get the first 20 back

I just want them to love me but  
All they want from me  
Is to tell em where the money at

I'm out of place  
No more pouty face  
I can't stay here  
I'll take my chance in outer space

What I need is simply  
Something the world can't give me  
Up up away I go  
Up up, up up away

What I need is simply  
Something the world can't give me  
Up up away I go  
Up up, up up away

Shootin' for the moon  
Even if it makes me  
Loony as a tune

I gave in once  
And it threw me in the gloom  
Wanna fly away  
So I blew me a balloon

Wanna shoot it down?  
I don't care you can try  
Spend all day swatting  
Arrows out the sky

Wiggle one finger  
And I stare em in the eyes  
Crazy is a diss  
But I'm wearing it with pride

Gotta be me can't bury it inside  
If it means beef then I'm pairing it with fries

You can hide your soul  
In a pyramid of lies  
But you can't repair it  
When it dies

If that sounds arrogant then fine  
Better than a life of paranoia  
Cause I'm scared of what's behind

Stuck doing math  
Always carrying the nine  
Because I know what's coming  
How American am I?

What I need is simply  
Something the world can't give me  
Up up away I go  
Up up, up up away

What I need is simply  
Something the world can't give me  
Up up away I go  
Up up, up up away

Up up away I go  
Up up, up up away
