

# Panorama

Ryan Hurd

'Bout time we laid back, and just let time float on by  
Nothing but the panorama and my baby by my side  
Girl, we got a good view  
Doing what we're made to  
Yeah, listen to the wind blow

It goes  
(Ooh, ooh)

Nights singing in the midnight moon  
Soundtrack to me and you  
Silence and two hearts on fire  
Look at the stars tonight  
In the sky, in your eyes  
You know what your love feels like  
It feels like (ooh)

Laying back on a blanket, looking at a blanket way up high  
Between the darkness in the distance  
And the way the whole thing shines  
Makes you feel like you see God  
Makes you feel like you're alive for the first time  
Like you were my first time

(Ooh, ooh)

Nights singing in the midnight moon  
Soundtrack to me and you  
Silence and two hearts on fire  
Look at the stars tonight  
In the sky, in your eyes  
You know what your love feels like  
It feels like (ooh, ooh)  
It feels like (ooh, ooh)

Wait, the world turns, baby  
Don't it just seem crazy  
That a boy and a girl could fall in love  
Think about how fast it goes  
Think about how we don't know anything at all  
Except it does

(Ooh, ooh)

Nights singing in the midnight moon  
Soundtrack to me and you  
Silence and two hearts on fire  
Look at the stars tonight  
In the sky, in your eyes  
You know what your love feels like  
It feels like (ooh, ooh)  
It feels like (ooh, ooh)  
Don't it feel like (ooh, ooh)

'Bout time we laid back, and just let time just float on by  
Nothing but the panorama, listen to the wind blow
