

## Tab With My Name On It

Ryan Hurd

Time to kill  
Nowhere to be  
So I walked to the bar down the street

Just one drink and I don't feel nothin'  
Bartender asks if I need somethin'  
We get to talkin' and I don't mean to  
But I'm on to another, and I'm talkin' 'bout you

There's a tab with my name on it  
And I'll be sittin' here all night  
TV with the game on it and jukebox playin' songs that I like  
But around drink three, that's when it hits me  
That all I have without you with me  
Is a tab with my name on it

Didn't come to forget  
I was doin' just fine  
Wasn't tryin' to put you back in my mind

Then a girl walks in and she looks like you  
And she sits by me on an empty stool  
Then we start talkin' and we both smile  
Tell her if she's gonna be here awhile

There's a tab with my name on it  
And I'll be sittin' here all night  
I can tell that she wants to stay just by the look in her eyes  
But around drink three, that's when it hits me  
That all I have without you with me  
Is a tab with my name on it

Can't you just come down?  
Maybe just one beer  
If it's all I get, baby, I don't care  
You can break my heart for the millionth time  
You don't have to, but if you drive by  
There's a tab with my name on it  
There's a tab with my name on it
