

To A T

Ryan Hurd

Take off your make-up
Nobody's around
It's you and me, girl
Just let your guard down

I see right through you
I know what it means
I know I got you
The moment when you close your eyes
I know I'm doing something right

I got you down to a T-shirt
White sheets and red wine
Baby, you don't wanna leave
You want a record with some reverb, back beat and low light
You know, I know what you need tonight
Girl, I'll take my time-ime
Dot every, I
I, baby, I, I
I got you down to a T

Mm

Stay here 'til sunrise
I wanna know you
Like it's the last time
I'll ever hold you

Girl, every detail
Leave it up to me
Lay back and let go
You don't even have to say-ay-ay anything
Oh, by the way-ay-ay

You should see how you look in that T-shirt
White sheets and red wine
Baby, you don't wanna leave
You want a record with some reverb, back beat and low light
You know, I know what you need tonight
Girl, I'll take my time-ime
Dot every I
I, baby, I, I
I got you down to a T

Whoa, yeah, yeah

Got you down, got you down
Got you down, got you down

Don't worry, baby
'Cause driving you crazy
Is all I ever wanted

Now that I got you down to a T-shirt
White sheets and red wine
Mm
You want a record with some reverb, back beat and low light

You know, I know what you need tonight
Girl, I'll take my time-ime
Dot every I
I, baby, I, I
I got you down to a T

Whoa

I got you down to a T
Got you down, got you down
Got you down, got you down
I got you down to a T
