

# We Do Us

Ryan Hurd

Late to the party cause girl we're the party  
You're the tequila and the salt and the lime  
Doesn't matter wherever we're at girl  
Whatever happens it's a hell of a time  
We roll out, we get drunk, we get down  
Baby I loo kind of stupid when I'm dancing with you  
But you laugh and I like it, we're magic tonight  
We don't mean to make 'em jealous but we do

Make our own sunshine, make our own love baby  
Ain't nobody do it like we do us  
We make our own music, bang our own drum baby  
Ain't nobody do it like we do us  
We go together like New Year's Eve  
And cheap champagne, and you can pour it all on me  
Ain't no better feeling it does what it does  
Ain't nobody do it like we do us

Watching you smiling gets me smiling  
Everything about you, everything about me just  
Fits like a puzzle, I love your love girl  
You can be the waves, baby I'll be the beach  
I'm the word, you're my rhyme  
Every note, every line  
Goes together like a song that we got stuck on repeat  
We're stumbling home 'cause it's three in the morning  
But that ain't gonna stop you and me

Make our own sunshine, make our own love baby  
Ain't nobody do it like we do us  
We make our own music, bang our own drum baby  
Ain't nobody do it like we do us  
We go together like New Year's Eve  
And cheap champagne, and you can pour it all on me  
Ain't no better feeling it does what it does  
Ain't nobody do it like we do us  
We do us

Girl there ain't no taste like the taste on your tongue  
Ain't nobody bring it like you bring it 'til it's done  
Ain't nobody know you the way that my body knows you  
Baby ain't nobody do it like we do

Make our own sunshine, make our own love baby  
Ain't nobody do it like we do us  
We make our own music, bang our own drum baby  
Ain't nobody do it like we do us  
We go together like New Year's Eve  
And cheap champagne, and you can pour it all on me  
Ain't no better feeling it does what it does  
Ain't nobody do it like we do us
