

# All the Ways

Ryan Leslie

Hey  
Les  
Hey

It's you, you the main attraction  
Your eyes tell me the truth and  
When you start a chain reaction  
I can't hold back from you

You frame, often the distance  
I love watchin' you  
And your shape, I can't resist it  
I gave up, it's nothin' I can do

I'm lovin' all the ways, I love all the ways about you, about you (Uh)  
All the ways, life would go other ways without you, without you  
In all the ways

It's you, like the rain in summer  
Your smile can wash away pain, and  
It's you (It's you), don't you ever wonder (Don't wonder)  
One day, you'll take my name

You frame, often the distance  
I love watchin' you  
And your face, so magnificent  
I gave up, it's nothin' I can do

I'm lovin' all the ways (I love), I love all the ways about you (I love), about you (And I'm lost without)  
All the ways (Without), life would go other ways without you, without you  
In all the ways

I could see it now, how I'd be without you (Without you)  
I'd be nothin' but a shell (Without you)  
You know the way I feel (Oh)  
So I need you now (Baby)  
'Cause I can't live without you (Without you)  
So baby, take my hand, and let's go all the way

I'm lovin' all the ways (The ways), I love all the ways about you, about you (Life would be a waste)  
All the ways (Without you), life would go other ways without you, without you  
u  
In all the ways  
All the ways, I love all the ways about you (Come here), about you (You got everything I need)  
All the ways (What would I be without you?), life would go other ways without you, without you  
In all the ways

Oh, and I love, and I love all the ways that you're righteous  
You are, the one thing I wish for, for me, for me  
In all the ways  
Oh, oh-oh-oh  
All the ways  
I love all the ways
