Yeah

Lovin' when it's winter
Know your body love it when I enter
Something gets triggered and you want me when it's cold out, uh
Give me that gushy, girl, don't hold out, baby
We ain't got to turn the lights out
It's only me and you, no one else right now, yeah
So do it for the video cam
We just need each other plus a slow jam, uh

Got me makin' plans
To show you my appreciation
Activities for all kind of weather
For the winter, spring and summer, fall, yeah (Oh-oh)
Got me makin' plans
So many plans, so far and advanced
Things we can do when we are together (Oh)

And I love it when it's summer (Summer, summer)
How many days of flirtation, girl? You just pick a number
We got the whole year
And you ain't gotta worry 'bout your job now, bae, uh
And when the leaves fall (Leaves fall)
You know I'll be on call to take you down South if you like
No matter the season, girl, the time's right, yeah

Got me makin' plans
To show you my appreciation
Activities for all kind of weather
For the winter, summer, fall, baby
Got me makin' plans
So many plans, so far and advanced
Things we can do when we are together (Oh)

Yo
I spent 'bout thirty on a weekend out in France, bae
Spendin' bands, bae, I been spendin' bands, bae
You got fans, bae, and I know you got bands
You got suitors but I know they cannot do it like I can (Woo)
First class, sip the Henn' on schedule, we got PJ's
We straight, skippin' classes on the week days
We play, new Ferrari where the keys stays
Like we runnin' sweepstakes
