

Ride For Each Other

Ryan Leslie

Said I'm running out of time and of patience

If we're right for each other
Why don't we ride for each other
Why don't we ride for each other, bae
If we're right for each other
Why don't we ride for each other
Why don't we ride for each other, bae
If we're right for each other
Why don't we ride for each other
Why don't we ride for each other, bae
If we're right for each other
Why don't we ride for each other
Why don't we ride for each other, bae

Do it slow
Make it pop
Make it go
Feel it like you never did
Tell me what you never said
Throw it back
Make it rain
Take it, time
Take it, pain
Do it for me
Do it well
Get it shawty
Show and tell

This love is so contagious
But I'm running out of time out of patience
I know you're armed and dangerous, bae
I know we're tryna make it
But we just keep turning pages
I'm running out of time out of patience, oh, I
We put ourselves in cages
But we gotta get through the stages
Put ourselves in each other's places, bae
This love is so contagious
But I'm running out of time out of patience
I'm running out of time out of patience

If we're right for each other
Why don't we ride for each other
Why don't we ride for each other, bae
If we're right for each other
Why don't we ride for each other
Why don't we ride for each other, bae
If we're right for each other
Why don't we ride for each other
Why don't we ride for each other, bae
If we're right for each other
Why don't we ride for each other
Why don't we ride for each other, bae
If we're right for each other
Why don't we ride for each other
Why don't we ride for each other, bae

Turn it 'round
Do it for me

Do it now
Show me how you put it down
Then we go another round
Get it
Run it back
Sweating like we running track
Take me to another place
Headed for that outer space
Bust it

This love is so contagious
But I'm running out of time out of patience
I know you're armed and dangerous, bae
I know we're tryna make it
But we just keep turning pages
I'm running out of time out of patience, oh, oh
We put ourselves in cages
But we gotta get through the stages
Put ourselves in each other's places, bae
This love is so contagious
But I'm running out of time out of patience
I'm running out of time out of patience

If we're right for each other
Why don't we ride for each other
Why don't we ride for each other, bae
If we're right for each other
Why don't we ride for each other
Why don't we ride for each other, (baby)
If we're right for each other
(And we ride)
Why don't we ride for each other
(And we ride, and we ride and we ride)
Why don't we ride for each other, bae
If we're right for each other
(Aw Baby)
Why don't we ride for each other
Why don't we ride for each other, bae
(And we ride, and we ride and we ride)
If we're right for each other
Why don't we ride for each other
Why don't we ride for each other, bae
(Baby if we're right)
If we're right for each other
(Let's ride)
Why don't we ride for each other
Why don't we ride for each other, bae

That's it, that's it the beat just stops?
