

Run It Back

Ryan Leslie

Les
Yeah
Oh
You know what I'm talking 'bout?
Let's get it
Les
Yeah

Baby, I never meant to do you like that
Maybe we should run it back
We did some things I know we probably regret
So maybe we should run it back
You know I never meant to hurt you, no
Maybe we should run it back
Got some issues we gotta work through
So maybe we should run it back

Know it's a fire I shouldn't play with
Now I'm just hopin' I can save this (Save this)
Yeah, even though you have me on your wait list
Somehow I believe that we can make it (We can make it)
I know I wrote some of your favorite songs
Can we go back and admit where we went wrong, wrong?
Don't wanna believe the love is gone

Know you meant it when you left
I'll admit I loved you to the death
You take a minute to turn around
'Cause I'll admit I love you still now
We can win it if we try
Just look me in my eyes and you'll see I won't let you down
Don't wanna waste this
If I can feel, you can feel it, we can feel it all around

Baby, I never meant to do you like that
Maybe we should run it back
We did some things I know we probably regret (Run it, run it, run it)
So maybe we should run it back
You know I never meant to hurt you, no
Maybe we should run it back
Got some issues we gotta work through
So maybe we should run it back

Just tryna get you on my wavelength
You know I keep it low maintenance (Maintenance)
Yeah, I always kept you in the latest
Stepped out, we always made a statement (Statement)
Uh, when you needed someone to hold you down (Down)
You know I was always around, 'round
I still believe in what we found

Know you meant it (Meant it) when you left (Left)
I'll admit I loved you to the death
You take a minute (A minute) to turn around (Around)
'Cause I'll admit I love you still now (Now)
We can win it (Win it) if we try (Try)
Just look me in my eyes and you'll see I won't let you down

Don't wanna waste this
If I can feel, you can feel it, we can feel it all around

Baby, I never meant to do you like that
Maybe we should run it back
We did some things I know we probably regret (Run it, run it, run it)
So maybe we should run it back
You know I never meant to hurt you, no
Maybe we should run it back
Got some issues we gotta work through
So maybe we should run it back

Run it back, run it
Maybe we should run it back
Baby, we should run it back
Run it back, run it
Maybe we should run it back
So maybe we should run it back
Run it back, run it back, run it
Maybe we should run it back
Baby, we should run it back
Run it back, run it
Maybe we should run it back
Les
