

Wings Up

Ryan Leslie

I'm on the late night flight
Wings up on all the water
Waiting for my date with destiny, yeah
And on this late night flight, yeah
Wings all up on the water
Pray that God watch over me

Said, pocket full of bread, kiss for my honey
Fist full of rings, gold wrist say I'm money (I'm money)
You know it's heavy when you should be at the dinner table (We eating)
The black card real heavy when it hit the table (Blaow)
Maybe the greatest to ever do it yet (The greatest)
You can say I made the money doing music tech (We made it)
Don't you see me drowning in these new baguettes? (I'm shining)
I'm a Harvard boy, what did you expect?
Fans gave me status, labels gave me pennies
They see us at the Oscar's man, we skipped over the Emmys (Awards)
Making movies with my guerrilla team
Young shooters, we the leaders of the new regime
It's a movie whenever I arrive
Feel like a fugitive cause I escaped my nine to five (Another level)
Graduated to that twenty-two
My team eating, best believe we getting money too

I'm on the late night flight
Wings up all on the water
Waiting for my date with destiny, yeah
And on this late night flight, yeah
Wings all up on the water
Pray that God watch over me

And we gon' win the war, if we don't win the fight
We still chasing girls, each and every night
And we gon' win the war, if we don't win the fight
We still chasing girls, each and every night

Sign of the cross for these petty haters (God bless 'em)
We get the job done, call us terminators
Every time I turn around they try to terminate us (Get off me)
Asking too many questions even though they neighbors
They know I'm famous, say I owe them favors
I don't owe nobody nothing man, I'm self-made, self paid (D2C)
Gumroad, see what Delk say
The flash sale, four racks, that was well played (Diversify)
It's different platforms in various amounts (Different)
Several old balances in various accounts (Different)
Eating crab cakes on the catamaran
Can't nobody say I'm lucky for having a plan (Mastermind)
Fans identify me as a Demi-God
2010 you know they robbed me of my Grammy nod
Still cemented in music history (I'm here)
How'd he do that on his own? It's still a mystery

I'm on the late night flight
Wings up all on the water
Waiting for my date with destiny, yeah
And on this late night flight, yeah

Wings all up on the water
Pray that God watch over me

And we gon' win the war, if we don't win the fight
We still chasing girls, each and every night
And we gon' win the war, if we don't win the fight
We still chasing girls, each and every night
And we gon' win the war, if we don't win the fight
We still chasing girls, each and every night

Said we're winning
We gon' win the war
Said we're gonna win the war
The war
Cause we know just what we're fighting for
Said we'll win the war
If we don't win the fight
We gonna chase these girls, each and every night
Yeah, we gonna win it, we gon' cement it
