

Before The Sun Sets

Ryan O'Shaughnessy

We've been here so long the forest floor's filled with our foot
prints

Climbing trees so tall my hands are numb

Wearing my new winter boots with studs deep in the sole

Good for climbing trees but not so good for racing home

And I believe in the words of angels

So I see I'm more than able to achieve

The goals I've laid out

Before the sun sets

Before the sun sets on me

From the back your hair flows like a thousand birds in flight

Wooly hats and scarves to hold the heat in tight

Chasing dreams I dreamt while I was daydreaming at school

I leared that life's too short to waste one day

So I believe in the words of angels

So I see I'm more than able to achieve

The goals I've laid out

Before the sun sets

Before the sun sets

I wanna feel the air that's floating around me

I'm more than able to achieve

The goals I've laid out

Before the sun sets

Before the sun sets on me

The sun is going down

The sun is going down

Just teach me to love

Just teach me to feel

Look what I got into

Look what I got into
