

Hold Me Now

Ryan O'Shaughnessy

I felt lucky before
But now I feel it more
With you
(With you, with you, with you)
Real commitment's never been my thing
But I can get over that I'm sure
For you
(For you, for you, for you)

It's coming straight for me
I don't wanna break my gaze
This feeling's strange

Hold me now
Just hold me now
Let me hold you now
Hold me now

I've given out when my friends have changed
And love's come seeping through
It's true
It's true, it's true, it's true
It's been a month since I've seen though friends
Spending too much time with you
With you
With you, with you, with you

Just coming straight for me
And I've played all my cards
Just take my heart

And Hold it now
Hold it now
Just hold it now
Just hold it now

See I never thought (No he never thought, no he never thought)
That in one in a million years (One million years, one million years)
That I'd long for your touch
On the scale that I do
And I know in there you see it too

You wanna hold me now
Just hold me now
Wanna hold me now
Hold me now
Hold me now, just open your arms and...
Hold me now
Hold me now
Hold me now
Hole me now
Hold me now
Hold me now
Just hold me now
Hold me now
