

Supermodel

Ryan O'Shaughnessy

Su-supermodel

Su-supermodel

Asked the universe for a sign, a supermodel (Su-supermodel)

Yeah, a supermodel (Su-supermodel)

A supermodel (Su-supermodel)

A supermodel (Su-supermodel)

Why, I don't know why (Su-supermodel)

(Su-supermodel)

Asked the universe for a sign, it came and made you mine

My supermodel, su-supermodel, yeah

Asked the universe for a sign, it came and dropped me a rhyme

My supermodel, su-supermodel, yeah

The juice from an apple is the sweetest thing

From the chords on the neck to the notes I sing

Let's sync into the soul everywhere we go, oh

Straight from the bottle

Asked the universe for a sign, it came and made you mine

My supermodel, su-supermodel, yeah

Asked the universe for a sign, it came and dropped me a rhyme

My supermodel, su-supermodel, yeah

Su-supermodel

Can I you back to my place?

Su-supermodel, yeah

Su-supermodel, yeah

Su-supermodel, yeah

Take a fly just looking at her

Just state of mind

Asked the universe for a sign, it came and made you mine

My supermodel, su-supermodel, yeah

Asked the universe for a sign, it came and dropped me a rhyme

My supermodel, su-supermodel, yeah

The juice from an apple is the sweetest thing

From the chords on the neck to the notes I sing

Let's sync into the soul everywhere we go, uh

Straight from the bottle, straight from the bottle

Can I you back to my place?
