

Waste Another Day

Ryan O'Shaughnessy

I think I've reached that stage
Each time I get that inclination it's stuck in my breath
On the outside life may have changed
But does the love I give come rushing back to me now

I won't waste another day
Letting these clouds create the shade
Instead of trying anyway I can
To get you close enough to say
That I miss you

Never go and never leave and never cry
Gotta understand, I'll make it true, I'll make it right
Never go and never leave and never cry
Gotta understand that you're the only reason why

Why, yeah

I miss your face, I think that we should meet
Same time again, lower Grafton Street
Is your skin still silky smooth?
Now there's no love lost with me
I'm here to listen to your thoughts and hear your dreams
Do you dream of me like you used to do?

I won't waste another day
I've been letting these clouds create the shade, oh
Instead of trying anyway I can
To get you close enough to say
That I miss you

Never go and never leave and never cry
Gotta understand, I'll make it true, I'll make it right
Never go and never leave and never cry
Gotta understand that you're the only reason why

Name a time and place, we'll meet
Any time, any day or week
Name a time and place, we'll meet
Any day of the week I'm free
Name a time and place, we'll meet
Any day of the week I'm free
Name a time and place, we'll meet
