

# All I Need

Ryan Stevenson

Been on a treadmill of performance  
Not really knowin' what the score is  
Waitin' for You to show me where the door is  
It's like I'm always on the run  
I'm goin' uphill without a summit  
It's knockin' the wind out of my stomach  
And all the little setbacks keep on comin'  
I think that I've had enough

Ooh, chasin' the carrot, are we there yet?  
Singin', "Ooh," I wanna let go and stop carin'

All I need is You  
I think it's time we slow this down  
Remember where my peace is found  
All I need is You  
It's all about Your presence  
Now I can just be free  
'Cause I got You and that's all I need

I'm makin' life so complicated  
And I'm always wonderin' why I'm feelin' jaded  
And all of this emotion I've been wastin'  
When You've always been enough

Ooh, chasin' the carrot, are we there yet?  
Singin', "Ooh," I wanna let go and stop carin'

All I need is You  
I think it's time we slow this down  
Remember where my peace is found  
All I need is You  
It's all about Your presence  
Now I can just be free  
'Cause I got You and that's all I need

Take me back to the beginnin'  
I realized that I've been forgiven  
And all that You did guaranteed me I'm winnin'  
No matter what go down, you can see me be grinnin'  
'Cause You are the way, the song of my life  
You've taken my wrongs and given me rights  
I want to become more like You, Christ  
You're changin' me up from the inside

Singin' like, "Ooh, ooh-ooh, ooh"

All I need is You  
I think it's time we slow this down  
Remember where my peace is found  
All I need is You  
It's all about Your presence  
Now I can just be free  
'Cause I got You and that's all I need

All I need, all I need, all I need, ay (You are all I need)  
All I need, all I need, all I need, yay

All I need, all I need, all I need, ay (You are all I need)  
All I need, all I need, all I need, yay

All I need, all I need, all I need, ay  
All I need, all I need, all I need, yay  
All I need, all I need, all I need, ay  
All I need, all I need, all I need, yay
