

Child In Your Arms

Ryan Stevenson

In the darkness of the night
Monsters running through my mind
I don't have the strength to fight
I need you

Fear is pounding in my chest
I can barely take a breath
Wishing I could find some rest
I need you

When the night is long
There is a secret place
Where I know I can run

I want to fall straight into your arms
I want to stay wherever you are
I want to listen to the beat of your heart
Like a child in your arms
Like a child in your arms
Like a child in your arms
Like a child in your arms

I need only see your face
With my father I am safe
You wipe every tear away
I need you

When the night is long
You are the secret place
Where I know I belong

I want to fall straight into your arms
I want to stay wherever you are
I want to listen to the beat of your heart
Like a child in your arms
Like a child in your arms
Like a child in your arms
Like a child in your arms

I want to fall straight into your arms
I want to stay wherever you are
I want to listen to the beat of your heart
Like a child in your arms
Like a child in your arms
Like a child in your arms
Like a child in your arms

I want to fall into your arms
I want to fall
Like a child in your arms
I want to fall into your arms
I want to fall
Like a child in your arms
