

Tell Me How

Ryan Stevenson

I'm a prodigal, looking for the pot of gold
Born with a restless heart, faith like a shooting star
Burning out, coming back around
Wrestling with all my thoughts, days when I'm feeling lost

Trying to connect, space in between
Head and my chest, what's it all mean
Holding my breath, questioning everything

How do I learn to trust you with it all
How do I know you'll catch me when I fall
How do I learn to trust you with it all
How do I know you'll catch me when I fall

Tell me how
Tell me how
Won't you tell me how
Tell me how

Can we skip the tip-toeing on these eggshells
Can you see this thread I'm hanging by right now?
God, you say you can take, all of my doubt, praying it's true, wonder
ing how
Losing my grip, and I could use you now

How do I learn to trust you with it all (How do I, how do I)
How do I know you'll catch me when I fall
How do I learn to trust you with it all (How do I, how do I)
How do I know you'll catch me when I fall

Tell me how (How do I know you'll)
Tell me how (How do I know you'll)
Won't you tell me how (How do I know you'll)
Tell me how (How do I know you'll)

I know that you're listening, I know that you care
But sometimes in my humanness I need to know you're there

How do I learn to trust you with it all (All)
How do I know you'll catch me when I fall (God, I need to know)
How do I learn to trust you with it all
How do I know you'll catch me when I fall

Tell me how (How do I, how do I) (How do I know you'll)
Tell me how (How do I, how do I) (How do I know you'll)
Won't you tell me how (How do I, how do I) (How do I know you'll)
Tell me how (How do I, how do I) (How do I know you'll)
