

The Answer

Ryan Stevenson

I see the loneliness behind
The question marks in every eye
I feel the pain locked up inside
These empty hearts and empty lives

If we would seek His face
I know we would see a change

There's only one healer
There's only one name
Only one redeemer
With the power to save
There's only one solution
There's only one way
He's the hope, He's the truth
He's the answer for the world today

I see the starving people fed
Hospital floors with empty beds
And every addict becoming free
And every outcast in a family

Oh, if we would seek His face
I know He would heal this place

There's only one healer
There's only one name
Only one redeemer
With the power to save
There's only one solution
There's only one way
He's the hope, He's the truth
He's the answer for the world today
He's the answer for the world today
He's the answer

I see wrongs made right, darkness turned to light
Broken lives made whole, it's so beautiful
Shattered hopes and dreams come realities
Families restored, it's so beautiful

There's only one healer
There's only one name
Only one redeemer
With the power to save
There's only one solution
There's only one way
He's the hope, He's the truth
He's the answer for the world today
He's the answer for the world today
He's the answer for the world today
He's the answer for the world today
He's the answer
For the world, today
