

# The Great Awakening

Ryan Stevenson

We were sleeping  
Day dreaming  
Chasing our own kingdoms  
Building up our towers to the sky

We were living complacent  
Stuck in our own ways  
And sometimes freedom keeps us much too satisfied

Can You open our eyes?  
Lord, bring us back to life

Now is time we rise, let us burn with holy fire  
Now is the time we cry for every heart to find the light  
We need revival to come, make this the moment that it does  
Lord, we're on our knees, we just wanna see  
A great awakening!

Take our selfish ambition  
Give us ears to listen  
So we don't miss the heartbeat of our king  
Be our strength, be our hope, be who you've been all along  
There's nothing in this world you can't redeem

Now is time we rise, let us burn with holy fire  
Now is the time we cry for every heart to find the light  
We need revival to come, make this the moment that it does  
Lord, we're on our knees, we just wanna see  
A great awakening!

We're calling out your name, hear your people pray  
Flood us with your healing, flood us with your grace

We're calling out your name, hear your people pray  
Flood us with your healing, flood us with your grace

Now is time we rise, let us burn with holy fire  
Now is the time we cry for every heart to find the light  
We need revival to come, make this the moment that it does  
Lord, we're on our knees, we just wanna see  
A great awakening!

God we need  
God we need  
God we need  
A great awakening!  
God we need  
God we need  
God we need  
A great awakening!
