

This Christmas Eve

Ryan Stevenson

I wake up in the morning, open up my shades
There's a winter wonderland outside
Like diamonds in the air, fresh blanket of flakes
Bringin' a sparkle to my eyes

Even though it's been cold
I know we can weather any storm
Let it fall, let it snow
There'll never be a place like home

It's Christmas eve
And nothin's under the tree
But I'm not blue
Cause I've got you, and baby you've got me
And this holiday
We're gonna be okay
We ain't got much
But baby we've got us, and that's all we need

Afternoon napping' by the fireplace
Yeah we're cuddled up nice and close
Gingerbread cookies on my grandma's plates
And the kids are watchin' Home Alone

Even though it's been cold
Our love is gonna keep us warm

It's Christmas eve
And nothin's under the tree
But I'm not blue
Cause I've got you, and baby you've got me
And this holiday
We're gonna be okay
We ain't got much
But baby we've got us, and that's all we need
Yeah yeah, this Christmas eve
This Christmas eve

We ain't got much
But what we've got is love
We ain't got much
But what we've got is love
We ain't got much
But what we've got is love
Love

It's Christmas eve
And nothin's under the tree
But I'm not blue
Cause I've got you, and baby you've got me
And this holiday
We're gonna be okay
We ain't got much
But baby we've got us, and that's all we need
We ain't got much
But baby we've got us, and that's all we need
