We Got The Light

Ryan Stevenson

Everybody's got something they are trying to overcome
Everybody's got a secret they have swept underneath the rug
Everybody has spoken a lie behind a brother
Looking for a splinter in the eye of another

You don't ever have to feel alone
Together we are on this road

We got the light that never fades
We're gonna make it through today
Hold on, hold on
We got the key to free your soul
Hold on, hold on

Everybody is looking for love and looking for a meaning
Everybody is searching for reasons to keep believing
Everybody is hanging on, trying to not let go
Just praying for the strength to carry this heavy load

You don't ever have to feel alone
Together we are on the same crazy road

We got the light that never fades
We're gonna make it through today
Hold on, hold on
We got the key to free your soul
Hold on, hold on

We got the heart that brings the hope
We got the key to free your soul
Hold on, hold on

It's taking us over tonight
We're handling you over our lives
It's taking us over tonight
We're handling you over our lives

We got the heart that brings the hope
We got the key to free your soul
Hold on, hold on

We got the heart, we got the hope
We've got the key, you've got the soul
We've got the love coming from above
Gotta give it away to everyone

We got the light that never fades
We're gonna make it through today
Hold on, hold on

We got the heart that brings the hope
We got the key to free your soul
Hold on, hold on

We got the heart that brings the hope
We got the key to free your soul
Hold on, hold on
