

Save Me

Ryland James

Won't you save me?

Draw the blinds closed, pull the sheets in
No, I don't wanna move, I'll just sleep in
Paralyzed by all the lies I
Tell myself that I need to believe

In a faithless world
And you're my Heaven when it's Hell on Earth

So, won't you come and save me, save me (Won't you save me?)
'Cause I keep having doubts
It's like I'm going crazy, crazy (Won't you save me?)
Save me from myself

So, won't you come and save me? Won't you save me?
So won't you come, come and save me?
Won't you save me? Won't you save me?
So won't you come, come and save me?

Push the door in, bring my guard down
Say the words, let it hurt, let it all out
You're an angel, you know me too well
And when you take off your halo, I know that

In a faithless world
You're my Heaven when it's Hell on Earth

So, won't you come and save me, save me (Won't you save me?)
'Cause I keep having doubts
It's like I'm going crazy, crazy (Won't you save me?)
Save me from myself
It's like I'm living in a faithless world
And you're my Heaven when it's Hell on Earth
So, won't you come and save me (Save me), save me (Won't you save me?)
)
Save me from myself

So, won't you come and save me? Won't you save me?
So won't you come, come and save me?
Won't you save me? Won't you save me?
So, won't you come, come and save me?
So, won't you come and save me, save me? (Won't you save me?)
So, won't you come and save me, save me? (Won't you save me?)

Won't you save me?
