

# lets leave this town

Ryman Leon

You say, let's leave this town, let's find fair ground  
There's nothing for us here

I don't know when it changed, I wish we had more time to waste  
23 don't feel the same as 21  
We got a bigger place, I think it's worth the price we paid  
We got a gym and everything that we wanted

But you cry to me, you're scared to tell me something  
About this life we're building isn't even worth it  
All we've ever seen is this

You say, "let's leave this town, let's find fair ground  
There's nothing for us here"  
But I can't leave this town  
It's the only place I've ever known, my kids will grow up here

Now what a shame, sometimes I wish you would've stayed  
But fate has a funny way of twisting luck  
Another time and place would we have made the same mistakes  
Because I don't know if it was me that you wanted

But you cry to me, you're scared to tell me something  
About this life we're building isn't even worth it  
Can't you ever leave this place

You say, "let's leave this town, let's find fair ground  
There's nothing for us here"  
But I can't leave this town  
It's the only place I've ever known, my kids will grow up here
