

## orange

Ryman Leon

I wonder if you'll get this  
I'm on the highway heading west with  
The orange it teaches lessons I never knew  
And the pain of the yester  
Fades the same as the pleasure  
Chasing fate has its feathers too

Cause I can't go back to what we never had  
And I can't go back  
Cause nothing ever lasts  
And I can't go back  
I'm on a high chasing any direction  
Cause I can't go back home to you

And we were young and broken  
We were lost and hopeless  
Orange skies over oceans led the way  
And the nights were sleepless  
And the dreams I didn't believe in  
But life without reason leads astray

Cause I can't go back  
To what we never had  
And I can't go back  
Cause nothing ever lasts  
And I can't go back  
I'm on a high chasing any direction  
Cause I can't go back home to you  
And I can't go, can't go back  
To what we never had  
And I can't go, can't go back  
Cause I can't go back  
Cause nothing ever lasts  
And I can't go back  
I'm on a high chasing any direction  
Cause I can't go back home to you  
Oh, I can't go back home to you  
Oh, I can't go back home to you
