

# Heartbreaker

Ryn Weaver

Bright light casts a shadow my dear, and if the bulbs break...  
Who's the one who's waiting here?  
Until the daybreak, when the rush has come and gone  
Yea, I fell asleep, but I left my heart on  
So sweet, so fast, the russian roulette  
You heard my heart drum thumpin' like I'm waiting for death  
And like a moth flame, what a hidden treasure was that  
Yea, I fell asleep, but I left the light on

Don't make my candle burn on your time  
I'll give you what I know is mine

Here's a heart beat for a heartbreaker  
Here's a heartbeat for a heartbreaker  
Now and then you get what you wait for  
What you wait for...what you...what you...why?  
Here's a heartbeat for a heartbreaker  
Take it all, my favorite forsaker  
In a web I've got to untangle  
Cause I know you won't let me go alive

I wish I could walk away, and cut you out cold  
But then I keep on waiting like a fool for the gold  
I heard of monsters like you in the stories of old  
In the still of night, creeping through my nightmares  
So go on, get out, you heard what I said  
I need a short leashed puppy like a hole in the head  
I'm such a sick love junkie, and it's better off dead  
You can t-take the beat, but I'll keep the hardware

Don't make my candle burn on your time  
I'll give you what I know is mine

Here's a heart beat for a heartbreaker  
Here's a heartbeat for a heartbreaker  
Now and then you get what you wait for  
What you wait for...what you...what you...why?  
Here's a heartbeat for a heartbreaker  
Take it all, my favorite forsaker  
In a web I've got to untangle  
Cause I know you won't let me go alive

Can you see it beating? Cause I cannot feel it  
Seeing is believing, so, whats the use of feeling?  
What's the use of feeling?  
What's the use of feeling if I see it beating?  
But I cannot feel it  
Seeing is believing so whats the use of feeling if I see it beating?

Here's a heart beat for a heartbreaker

Here's a heart beat for a heartbreaker  
Here's a heart beat for a heartbreaker  
Now and then you get what you wait for  
What you wait for...what you...what you...why?
