RYUJIN

When the moon is on the lake
You will lose your sanity
Magical night has already begun
There's no turning back
We're walking around the lake
We're looking for sacrifice
Magical night has already begun
Finally, we found you

No, no I don't wanna be the sacrifice
No, no forgive me I'm an innocent
You can't escape me, the night is begun
You must be accepted

Full moon invites insanity
We're getting life asperity
This light will heal suddenly
Magical moon the night
Full moon invites insanity
We're getting life asperity
This light will heal suddenly
Magical moon the night

When the moon is on the lake
You will lose your sanity
Magical night has already begun
There's no turning back
We're walking around the lake
You're our sacrifice
Magical night has already begun
Finally, we found you
