Why we must fight each other  
I don't know, but it's wrong  
It's so wrong, so wrong

Positive Education Always Correcting Errors  
You can never gain peace by inflicting terror  
And strapping bombs to arms  
Running up inside buildings killing little children and moms  
Instead of trying to take land, y'all should shake hands  
And give respect to the great father Abraham  
You've been fighting over Palestine since Saladin  
Have you learned what the word 'non-violent' mean?  
Or turn the other cheek?  
You burn your brother g  
When Jacob came home  
He gave his brother sheep  
What's the use to recruit troops and shoot fruit  
When you both be seeds from the same root  
Even when young Moses was lost in the desert  
He was taught wisdom from an Arabian Shepard  
My pen is mightier than CNN  
Right now I'll teach you how to See iN iN  
Close your eyes silently  
Breathe in deep  
Inhale this here all the  
Way to your feet  
Then exhale slowly through your nostril  
Combine the Torah, Qu'ran, with the Gospel  
With your mind open and eyes shut  
You can't tell the difference of who's who, and what's what  
Please educate Allah's children everyday  
A lesson a day keeps the devil away

What's the difference in Shalom and Salaam (peace)  
The rockets and bombs (cease), The Torah, Quran  
We spoke Aramaic  
Islamic Judaic  
Mohammed mosaic-worldwide  
Whether Muslim or Jewish  
Christian, Atheist, Hindu, or Buddhist  
We bleed the same color  
We breathe the same air  
Seeds of our brothers  
We need the same care  
Half naked, built up with so much hatred  
Man in a land so sacred  
City of David  
Authentic garb  
Cloth wrapped staffs  
The book of Isaiah  
And ritual baths  
G-d almighty  
Cherubim and Seraphim  
Infinite eternity  
Adonoi Elohim  
I dream of Jews & Palestinians together  
Living and loving

In Peace forever

Planet earth, a small ball of clay  
Existing in the universe eons away  
From nothing just out there  
In the midst of nowhere  
Spinning...wait a minute  
Let's look closer down to its surface  
Where we see corrupt government scandalous murders  
Men of the secret service  
Blowing up jeeps  
Killing men with ti turbans  
Disturbing like  
Fights over lands  
Not part of the plan  
Cultures expand  
Revolvers at hand  
God told Man, love thy neighbors, but then  
Countries invaded, twisters created, tilt the equator, hurricanes remain  
Cause this is sick, inhumane, disasters what happens after the rapture, close the chapter  
The grave gobble us up  
Cause we out of touch  
I'll name a few great men, Solomon, Tut-  
They both were kings  
But now we soar like the eagle with broken wings  
- Let's stop killing
